

# LET'S IMPROVE FLETCHER DRIVE TO SAVE LIVES

WE WANT TO HEAR FROM YOU

What is being planned on Fletcher Dr to improve safety

**ALTERNATIVE 1**

**LANE RECONFIGURATION**

By reorganizing the street, we can keep driving lanes in each direction, plus we can add a center turn lane, which improves safety by separating left-turning vehicles from through traffic. We can also add bike lanes that increase safety and comfort for people riding bikes.

**ALTERNATIVE 2**

**LANE RECONFIGURATION**

By reorganizing the street, we can keep driving lanes in each direction, plus we can add a center turn lane, which improves safety by separating left-turning vehicles from through traffic. We can also add another driving lane by removing street parking during rush hour so traffic has more room to flow.

## PLANNED ENHANCEMENTS
